

# BRINGING THE OUTSIDE IN

April 2020

## Indoor Fun

At Glade we are committed to our pupils' well being. While you are spending more time inside, we thought you might like some ideas to explore your creativity or some other things to do. We have gathered together a number of ideas to help our families enjoy this time together. We hope you can upload all your creative work to us so we can celebrate it together in our virtual assembly.

### Let's get Started

Some of these ideas need computer or phone access. Others are just using different things you might have around the home.

### Top Tips

- **Create and share.** Use our Glade upload system to share the creative things you have done.
- **Think creatively about the things you have at home so that you can try some of these activities.**
- **Try something new.** This will help you to learn new skills that you can bring back to school and share.
- **Switch off media.** Spend time together when adults are not working from home.

*"Growing, Learning and Achieving with Dedication and Enthusiasm"*

*-Glade motto*

Wouldn't try this at home!

### Try Out:

- Acting out a play.
- Growing a seed in an unusual container.
- Reading a book in an unusual place.

Upload your pictures for your teachers to see.

Lanterns—photo from WWF

## Lanterns

Using some of the skills we have learnt in class, you could create a lantern using some of the clean things from your recycling. Check out how to do it here: <https://www.youtube.com/watch?v=okSYbnPIYU&t=32s>

## Indoor scavenger hunt

Try an indoor scavenger hunt. Collect together items on a list or create a scavenger hunt for your family to do together or in teams. Remember to put the things back afterwards. Don't give your parents extra work!

Try one of these topics to start:

- Colours of the rainbow
- Letters of the alphabet
- Spell out GLADE PRIMARY with objects

## Write a play

Practise your playwriting skills by writing a play for your family. You could film it and share it with your teacher.

## Read a book

A great opportunity to get round to reading a book or listening to one. So many different audio books are available and free at the moment.

## Get cooking

Work as a family to get the meals ready. Mrs Dhadwal has already uploaded some cooking videos on to the school website. Many of you have tried them out. If you have not, have a go.

Add your recipes and photos to your class Google Drive. We could create a Glade recipe book.

Rainbow scavenger hunt

## Have fun

We really hope you don't forget to have lots of fun during this time. Make good memories with your family that you will have for years to come.

Board games at well being club—pre outbreak

## WWF home activities and virtual zoo tours

Without leaving your home, you can explore the outside world. Take a trip to a zoo by logging on to those sites and Facebook accounts that have virtual tours going on. Look up the schedules on their websites:

### Skill Factor

Learn a new skill. Why don't you learn to do origami, knitting or knot tying?

<https://www.scouts.org.uk/the-great-indoors/>

### Board games

Perhaps you could try a board game or invent your own if you don't have any.

### Online ideas

Try out some of these ideas from the WWF to really get into indoor crafting.

Find them here : [https://www.wwf.org.uk/updates/learn-love-nature?dm\\_i=38LF%2C10RVK%2C710S50%2C3VS5D%2C1#crafting](https://www.wwf.org.uk/updates/learn-love-nature?dm_i=38LF%2C10RVK%2C710S50%2C3VS5D%2C1#crafting)
